PERSONAL PROJECTS

Spotidash (09/2021 - Present)

- It is a web app to view your top tracks and artists and other stats from spotify based on their listening, with an amazing UI.
- link on my portfolio website

NERDLOG (08/2021 - Present)

- This is full-stack MERN app with firebase authentication. This app is a community blogging app like DEV Community
- link on my portfolio website

Money Mate (07/2021 - 07/2021)

- this is a MERN stack income-expense tracker which has authentication feature which helps people create their separate accounts so that they can keep track of their income and expenses.
- link is on my portfolio website works section.

DEW-GREY a VS Code Theme (06/2021 - Present)

- this is minimal visual studio code theme that I made and published on Microsoft Marketplace
- <https://marketplace.visualstudio.com/items?itemName=DEW.dew-grey>
